

THE FORMWORK

NOE[®] H20 Lifter

THE FORMWORK

NOE H20 Lifter – sicherer und schneller in die Höhe

NOE H20 lifter – for efficient, quick and safe installation
The NOE H20 lifter allows you to lift several deck formwork support beams into position at the same time. It meets the requirements of the new DGUV regulation 101 – 014. The clear distance between boarding support beams is less than 30 cm.

Efficient

Several H20 beams are lifted into place in one operation

Quick

Shorter formwork erection times compared to conventional placement of support beams and deck formwork panels

Safe

The beams are restrained against falling over and their spacings selected such that the deck formwork panels can be placed on them from above.
